Summary

B.Tech Computer Science and Design student with practical experience in Python, Data Science, and full-stack development. Skilled in data analysis, EDA, and ML fundamentals, with project experience in Flask-based applications and sustainability-focused platforms. Actively advancing toward AI and Machine Learning.

Skills

Programming & Scripting

- Python, JavaScript

Web Development

- HTML, CSS, Tailwind CSS
- Responsive Design, UI Components
- Flask, REST APIs

Data Science & Analytics

- Data Science Fundamentals
- NumPy, Pandas, Matplotlib
- Exploratory Data Analysis (EDA)
- Data Cleaning & Preprocessing

Machine Learning (Foundational)

- Scikit-learn
- Classification & Regression Basics
- Model Training & Evaluation

Databases

- MongoDB

Tools & Platforms

- Git, GitHub, Docker

Core Strengths

- Problem Solving
- Analytical Thinking
- Teamwork & Communication
- Time Management

EDUCATION

Bachelor of Technology (B.Tech) – Computer Science and Design

08/2024 – 07/2028

Maharashtra Institute of Technology, Chhatrapati Sambhajnagar

CGPA: 7.29

ACCOMPLISHMENTS

- 1st Prize Winner** – Cogni-Sphere 2025, a 2-day Technical & Non-Technical Project Competition organized by the IETE Student Forum, MIT Chhatrapati Sambhajnagar.
- 2nd Prize Winner** – Sankalpana 2025, District-Level Project Competition conducted by the Department of Electrical Engineering, MIT Chhatrapati Sambhajnagar.
- Participated in 4+ Hackathons, including Smart India Hackathon (Internal), gaining experience in teamwork, problem-solving, and rapid prototyping.
- Successfully completed and deployed multiple academic and personal projects in Data Science, AI fundamentals, and Full-Stack Development.
- Built and maintained a personal portfolio website showcasing projects, skills, certifications, and technical progress.

PROJECTS

Carbon Credit Trading Platform

Developed a sustainability-focused platform using Python and Flask to manage carbon credit allocation, buying, selling, and transaction tracking with user authentication.

Personal Portfolio Website

Built a responsive portfolio website using HTML, CSS, JavaScript, and Tailwind CSS to showcase projects, skills, achievements, and learning progress.

AgriConnect – Farmer Product Buying & Selling Platform

Created a web-based platform using HTML, CSS, and JavaScript to connect farmers directly with buyers, enabling product listing and simplified trade workflows.

Certifications

TCS iON Career Edge – IT Primer, Tata Consultancy Services (TCS iON) | Dec 2025

- Completed industry-oriented training covering IT industry overview, IT job tools, core IT fundamentals, emerging technologies, professional communication, and career readiness.

Data Science Course, CodeWithHarry

- Gained hands-on experience in Python programming, data analysis, data visualization, and machine learning fundamentals through practical learning.

Databricks for Machine Learning, Simplilearn SkillUp

- Learned foundational machine learning workflows, model training concepts, and an introduction to ML pipelines using the Databricks platform.

SOAR – AI to be Aware, Microsoft in collaboration with Skill India and NCVET

- Completed a foundational program covering artificial intelligence concepts, real-world applications, ethical considerations, and digital awareness.
